First and foremost THANK YOU!!!!

The whole staff was soooo sweet and caring. You all made my whole surgery experience very comfortable and easy. I thought every one was very professional, thank you for making this a great experience. I kind of gave everyone in your office nick names,

Lisa the listener because she keeps her cool under pressure, like when she had to listen to Betty and her crazy talk.

Melissa the smiley face ☺ she smiles so big, it made me feel comfortable when I was scared.

Laura the booby mangler ☺ because she knows how to work the boobs.

Keysa the George Lopez fan ☺ I have a pain in my chess and I can't even brief ☺

Sandy my Tom Tom because she had to give me directions to the office on my third visit ☺

THANK YOU ALL VERY MUCH!!
